*Lapépinière* *The nursery* **El vivero**

Un lugar privilegiado donde desarrollamos toda nuestra actividad. Situado en San Juan de los Terreros, población costera con un maravilloso clima mediterráneo apto para una perfecta producción de plantas.

*Notre production* *Our production* **Nuestra producción**

Dear friend and customer,  
We are pleased to present  
our new catalogue for the  
2007/2008 season.

As you will know, each year  
we aim to improve our range  
of plants, adding new  
varieties, new sizes and  
better quality.  
This is due to the ongoing  
improvements we make to  
our facilities, making our  
working processes as  
efficient as possible.

I should like to thank our  
whole team for their hard  
work, professionalism and  
determination in helping us  
achieve these objectives.  
The challenge of staying at  
the forefront of production  
means that we have to  
incorporate new varieties into  
our extensive range, and this  
motivates our professionals  
to add new options for the  
end customer.

We have incorporated higher  
levels of technical skill into  
our working culture, with  
greater efficiency in the work  
that we do and a better  
quality in the products that  
we offer. Another result of  
our continual effort is  
improved uniformity and a  
greater number of units per  
variety.

Every day, we work hard to  
build the image of our  
nursery, improving  
infrastructures to improve  
daily working conditions and  
creating a comfortable  
environment that our  
customers can enjoy.

I invite you to visit our  
nursery and see first hand  
the work that we do and the  
quality of our plants.

I hope we can continue  
counting on your custom  
throughout this new season,  
and please do not hesitate  
to contact me if I can help in  
any way.

Yours sincerely,

Alberto Pascual  
Manager

Très cher ami et client :

Comme tous les ans, nous vous présentons notre  
nouveau catalogue de la saison 2007/2008.

Comme d'habitude, nous faisons tout notre possible  
pour rendre notre gamme encore plus intéressante,  
en proposant de nouvelles variétés, de nouvelles  
tailles et en accroissant la qualité de nos produits.  
C'est le résultat du perfectionnement continu de nos  
installations, qui nous permet d'être très efficaces  
dans nos processus de production.

Je tiens à remercier tous les membres de notre  
équipe pour leur travail, leur constance et leur  
professionnalisme, qui ont permis d'atteindre ces  
objectifs. Les défis permanents pour être à la pointe  
de la production, nous obligent à introduire de  
nouvelles espèces qui viennent se rajouter à notre  
très riche gamme de variétés. Ces nouveautés  
encouragent les professionnels à les proposer à leurs  
clients finaux.

Nous avons incorporé plus de technique dans les  
travaux de culture, nous sommes ainsi plus efficaces  
et nos produits sont de meilleure qualité. Grâce à  
nos efforts continus, nous avons obtenu une  
homogénéité plus importante et une augmentation  
du nombre d'unités par espèces.

Nous travaillons tous les jours sur l'image de notre  
pépinière, en améliorant nos infrastructures pour plus  
de confort dans le travail quotidien, mais aussi pour  
que nos clients profitent d'une atmosphère agréable  
pendant leur visite.

Je vous invite à venir visiter notre pépinière, vous  
pourrez vous rendre compte par vous-mêmes de  
notre travail et de la qualité de nos plantes.

Je vous remercie pour votre confiance tout en  
espérant la conserver et me tiens à votre entière  
disposition. Veuillez agréer mes salutations les plus  
sincères.

Alberto Pascual  
Le directeur

Estimado amigo y cliente:

Un año más os presentamos el catálogo para la temporada 2007/2008.  
Como va siendo habitual, intentamos cada año hacer más atractiva  
nuestra oferta vegetal con nuevas variedades y tamaños, con un  
aumento en la calidad de nuestros productos y todo ello debido a la  
continua mejora de nuestras instalaciones y por consiguiente una alta  
eficacia en nuestro proceso productivo.

Es en el logro de estos objetivos, donde quiero agradecer a nuestro  
equipo humano, por su trabajo, constancia y profesionalidad.  
Los retos continuos para estar en la vanguardia de la producción, nos  
obligan a la incorporación de nuevas especies que unidas a nuestra  
amplia gama de variedades incentiva al profesional para añadir nuevas  
ofertas a su cliente final.

Hemos incorporado mayor tecnificación en nuestras labores culturales  
consiguiendo una mayor eficacia en los trabajos y una mejor calidad  
en los productos. Mejor homogeneidad y mayor cantidad de unidades  
por especie son consecuencia también de nuestro continuo esfuerzo.

Estamos día a día trabajando en la imagen de nuestro vivero, mejorando  
nuestras infraestructuras para una mayor comodidad en el trabajo  
diario, creando un ambiente confortable que permita a nuestros clientes  
disfrutar también en su visita.

Les invito a que visiten nuestro vivero y comprueben en primera  
persona nuestro trabajo y la calidad de nuestras plantas.

Espero seguir contando con su confianza en esta nueva temporada  
y quedo a su entera disposición.

Reciban un cordial saludo

Alberto Pascual  
Gerente Viveros Medipalm
